

TRANSGENDER DAY CONFERENCE

Newton Mearns Baptist Church, 30 May 2018

A guided day of Biblical reflection and interaction for Christian leaders who wish to deepen their understanding of the issue and the current debate within contemporary culture.

A time to orient yourself and other people in your team around best approaches and practices for pastoral carers. A day of investing in how to navigate cultural assumptions and of affirming the power of Christ in and through brokenness and weakness.

Two sessions on the issue from Scripture and the issue in current culture, with time set apart for thinking through the practicalities of creating Biblical and inclusive communities among churches where stories of transformation and peace are evidence of God's grace in Jesus Christ.
